## FORK SEAL KIT FOR MTB

REVISION #11

## TWO WHEELERS SEALING SOLUTIONS

### FORK SEAL KIT FOR MTB

**SKF fork seal kits for mountain bikes** are made of the same self-lubricating compound developed for superior sealing performance in motorcycle applications.

#### SKF advantages:

- Compatibility with a wide range of original equipment and aftermarket fork oils
- Enhanced water and dirt protection
- Capability to withstand UV light
- Reduced wear and air suction for longer life
- Wide range of tailored sizes to fit most applications

The **mountain bike fork seal kit from SKF** contains two integrated oil seal-dirt scrapers, crush washers and preimpregnated foam rings. Depending on the fork manufacturer, the kit may consist of two oil seals and two dirt scrapers.

- The integrated dust sealing lip is designed as a first guard against dirt entering the fork, thus preventing contamination of the other components in the fork
- The integrated oil sealing lip prevents oil from exiting the fork
- The special pre-impregnated foam ring within the kit provides enhanced friction reduction to the fork
- User friendly for quick replacement during periodical oil service

## FORK SEAL KIT FOR MTB

MTB32DT	FORK SEAL KIT <b>DT SWISS</b> 32mm All models 2015	€ 28,00
